Number 4 – November 2018

ERASMUS+ PROJECT: number: 2017-1-DE02-KA202-004138

*“Development of digital module-based self-oriented teaching and learning arrangements for disadvantaged target groups”*

## PROJECT INTRODUCTION

The project 2017-1-DE02-KA202-004138 Development of digital module-based self-oriented teaching and learning arrangements for disadvantaged target groups – ModuSOL. The project is approved by the National Erasmus Agency in Germany under the Erasmus+ 2014-2020 programme of the European Union.

It is under the key action: Cooperation for innovation and exchange of best practices.

Its main goal is the development of innovation through integration and the creation of digital learning contents in different digital formats, achieving this way the qualification in these transversal digital competences both for trainers and trainees.

## PARTNERS

The Strategic Partnership in charge of implementing the ModuSOL project is formed of five partners from 4 different countries:

**Berufsförderungswerk**  
(Germany), Project coordinator;

**RegioVision**  
(Germany);

**Dundee and Angus College** (Scotland);

**INSTITUT INPRO, a.s.**  
(Czech Republic) and

**DECROLY**  
(Santander, Spain), as project partners.

## THIRD TRANSNATIONAL MEETING

The partners arrived in Dundee on 8<sup>th</sup> and 9<sup>th</sup> November for the third Transnational Meeting. Discussions points including evaluation and feedback of the first Transnational Learning Activity in Santander, and planning for the second Learning Activity in Prague.

The partnership also discussed digital Best Practices along with dissemination techniques to further engage the project externally.

## AIM

ModuSOL is cooperation project for innovation and exchange of best practices.

Its main aim is to develop digital learning contents based on self-managed modules for teaching-learning addressed to disadvantaged target groups

The project scope will be focused on the development of such digital contents and on the training of trainers in VET studies on the countries where the project is being carried out.

Co-funded by the  
Erasmus+ Programme  
of the European Union

## UPCOMING EVENTS

The project will soon welcome 24 teachers and trainers to the second Transnational Learning Activity in Prague during December 2018. Following on from the first Activity in Santander, teachers will discuss and learn digital techniques and tools for learning.

During the final project year in 2019, each partner will hold a number of regional workshops to test the methodologies developed during the Learning Activities. In addition, planning will commence for regional Dissemination Conferences along with a final conference to take place in Berlin, DE in late summer 2019.

## GENERAL INFORMATION

Among the activities to develop in the two years of the project, the development of two training sessions for training professionals in education on methodologies for the creation of digital training materials is a key focus.

These training sessions will take place in Santander and Prague and will take place with participants from each of the partners countries.

Another result will be the development of a complete training programme both for trainers and trainees on the development and use of digital training materials.

The project will finish with final seminar in which ModuSOL results, outputs and training materials developed will be shown.

## SOCIAL ACTIVITIES

During the visit, the partners also enjoyed a walking tour of Dundee, learning about the history of the city and how it's current redevelopment is inspiring incoming investment and new opportunities.

Partners also enjoyed a tour of Dundee and Angus College and found out more about the work done with students in a digital environment,
